

Smart. Clean. Soft.

Imagine a fabric devoid of pilling even after countless washes? Well, now it's for real. Presenting Pilbloc™ – a range of anti-pill fibre known for its softness and unique hand-feel. Pilbloc™ resists pilling over repeated use and washing. As a result, it slows down the ageing process of the apparel. This is why knitwear and other apparel made out of Pilbloc™ look as good as new after every wash. Fabric made from Pilbloc™ resists pilling throughout its lifetime. What's more, Pilbloc™ blends quite easily with other fibres as well and enhances their pilling performance. Garments made with Pilbloc™ have cashmere feel, vibrant colours, bright and natural lustre, excellent wash and easy care aesthetics. Pilbloc™ is very suitable for school sweaters and fashion apparel.

Key Benefits:

- Soft touch, excellent wearer comfort
- New look after prolonged use/washing
- Pilling Grade of 4-4.5 (ICI Pill Box Test)*
- Lighter in weight w.r.t cotton, polyester, silk etc.
- Cashmere touch even in yarn dyed variety
- Can be blended with any natural and synthetic fibre

* Pilling grade also depends on Yarn Twist, Fabric Construction and Blends.
