

Weather resistant for
attractive outdoors.

**Durashine**[®]
by Birlacril

Presenting Durashine® from Birlacril®, for weather-resistant and attractive outdoors. By using Durashine® you can ensure excellent colour fastness to sunlight, durability to mechanical or chemical weathering and resistance to UV radiation. It also comes in a wide range of hues, each customizable as per requirement. In short, a perfect product for outdoor applications. Durashine® is produced with a special wet spinning process, a technology that imparts excellent colour retention and strong weather resistance to any fabric made out of it.

Key Benefits :
